The *Barron's* ranking was created in partnership with Calvert Research and Management, an arm of Eaton Vance. The Industry Mover Award is given to the company within the top 15% of each industry that has achieved the largest proportional improvement in its sustainability performance compared to the previous year. Aris Prepoudis, chief executive officer, RobecoSAM stated: "I congratulate Oshkosh Corporation wholeheartedly for being recognized as an Industry Mover in the Sustainability Yearbook 2018. The companies included in the Yearbook are the world's most sustainable companies in their industry and are moving the ESG needle in ways that will help us realize the UN's Sustainable Development Goals by 2030."

"These recognitions highlight Oshkosh Corporation's continued focus on sustainable operations and processes. We're honored to receive these awards and look forward to continuing to grow our commitment to sustainability in the future," said Wilson R.
