

U.S. Army Places \$1.69 Billion Order for 6,107 Joint Light Tactical Vehicles

Nov 28, 2018 8:19 AM

OSHKOSH, Wis.--(BUSINESS WIRE)-- Oshkosh Defense, LLC, an Oshkosh Corporation (NYSE: OSK) company, announced today that the U.S. Army has placed a \$1.69 billion order for 6,107 Joint Light Tactical Vehicles (JLTV) and associated installed and packaged kits. Today's delivery order marks the tenth order under the contract that was awarded to Oshkosh in August 2015.

“The JLTV is engineered with industry leading suspension and protection systems, as

well as the ability to support a spectrum of mission kits and weapon systems required for the modern battlefield,” said George Mansfield, Vice President and General Manager of Joint Programs at Oshkosh Defense. “This vehicle represents a technological leap forward that provides enhanced protection and extreme mobility both off-road and in dense urban terrain.”

To date, Oshkosh has delivered more than 2,600 vehicles. Oshkosh expects a Full Rate Production (FRP) decision in December 2018, followed by first Army unit equipped in early 2019.

“The JLTV also features a VICTORY compliant modular, scalable, open architecture system to support rapidly evolving C4ISR suites,” Mansfield continued. “This provides our Soldiers and Marines a vehicle that is capable of serving as a mobile command center. Today, other vehicles with this level of C4ISR capability are much larger, with little mobility.”

The JLTV fills a critical capability gap for the U.S. Army and Marine Corps by replacing a large portion of the legacy uparmored HMMWV fleet with a modern light protected vehicle.

About Oshkosh Defense

Oshkosh Defense is a leading provider of tactical wheeled vehicles and life cycle sustainment services. For decades Oshkosh has been mobilizing military and security forces around the globe by offering a full portfolio of heavy, medium, light and highly protected military vehicles to support our customers' missions.
